## Pilot Was Lucky...

**MIRACULOUS ESCAPE**—David Darr, San Clemente, escaped injury when his private, single-seater plane was overturned completely by a sudden wind and landed wings down on the desert near the Southern Pacific overpass on Indian avenue.

The wrecked plane is pictured shortly after the mishap which happened at 7 p.m. Friday. Darr reported to police that a valuable camera was missing from the plane after the accident. Note the overpass in the background, which when completed in the near future, will greatly improve travel conditions on Indian avenue leading to and from Palm Springs.

## This Side of The Sun

By Phat

**SMOGEVILLE** but beautiful — This is Black Friday... Not the one in which the bottom dropped out of the market... But out of me... It's the last week of my vacation... Read last week's article by a noted scientist... He said the world was slowing down... Gave the figures in fractions of seconds per 1000 years... He's wrong! The world is speeding up... Never saw six weeks go so fast in all my life as the past 42 days.

**SHALL BE GLAD** to see Mt. San Jacinto when I get home... It's a grand mountain... With complacent familiarity we call it "San Jac"... Down where the turf meets the surf last Wednesday I noted an entry "San Jac"... Applying the magnifying glass to the fine print in the Form, I noted "San Jac" had a mother whose first name was "Pam"... Not spelled right, but that's the way a lot of people pronounce the first name of the Village... So I thought, "What the 'L'..." And plastered two engravings of George Washington on his nose... Sweetest music was the dulcet tones of Joe Hernandez... "At the quarter, San Jac by a head, at the half, San Jac by a length, turning for home, San Jac by a length, into the stretch, San Jac by two..." Mt. San Jacinto, so Lloyd Mason Smith used to explain, is the tallest mountain in the world... Mt. Whitney is lots higher, but it starts from a 4,000 to 6,000 foot plateau... San Jacinto starts from about 500 feet here... So San Jac is the tallest... And San Jac, the namesake, was the longest (\$40,600) in a merry vacation... When I get home I am going to look westward each morning as I leave Avenida Olancha and bow gratefully to the tip of Mt. San Jacinto I can just see over the foothills.

## PALM VALLEY SCHOOL TO OPEN OCTOBER 5

The Palm Valley School, private day school, will open for the fall semester on Monday, October 5, with a greatly increased enrollment expected in all grades of junior and senior high school, Professor J. Blake Field, owner and director, announced today.

Most of the students of last year are planning to return and will be joined by new students, some of whose parents are visiting the desert area for the first time.

**FIELD REQUESTED** that as many of the new students as possible register at the school any time between October 1 and 4 for the purpose of arranging schedules and assignment of courses. School facilities are located on property formerly known as the Marsden Foundation.

Co-educational classes will be instructed by a faculty of well known and thoroughly experienced teachers. Small classes with an unusual amount of individual attention will feature the scholastic program, with special emphasis being placed on fundamental subjects such

City to Check on Fertilizers

City of Palm Springs this week will start tests to determine the qualities of screened pumice for use as a fertilizer for lawns in the Village, Acting City Manager R. W. Peterson announced.

City council last Spring discussed the possibility of banning by ordinance use of animal fertilizer, to eliminate flies and other insects. The city manager was asked to investigate different types of fertilizer.

A test plot of ground will be used at North End Park, Peterson said. The screened pumice does not attract flies and has no odor.

## Charlston Named Hotel Receiver

Ted Charlston has been appointed receiver for the Hotel del Tahquitz and re-opened it last week.

Charlston, a former Lieutenant Colonel, came here after his Army service. Former owner of the Hacienda hotel, he built the golf range on Highway 111.

## Cox Withdraws Resignation as Sanitarian for District

George D. Cox announced today that he has reconsidered his resignation and will continue as county sanitarian for the Palm Springs area.

as English, mathematics, languages, science and history.

**INTENSIVE** preparation will be given for all colleges, and students whose grades are satisfactory will have no difficulty in being admitted to the university of their choice, the director said.

Members of the faculty will consist of an unusual group of educators long experienced in the teaching profession; men noted not only for their knowledge of the subjects they teach but also for their ability to impart them to others, he explained. Students will be taught how to study as well as what to study.

**CURRY M. LOVE**, Joseph P. Hoban and William A. Mason will return as members of the faculty, and will be joined by Glen L. Huish, A. B., Arizona State college, who will teach languages, and Robert G. Smart, A. B., M. A., Amherst, who will teach sciences. Mr. and Mrs. Harry Tomlinson will again direct the music department, and more emphasis will be placed this year on choral singing with the formation of a glee club.

An art department will be instituted for the first time under the direction of a well known art instructor, and all students interested in art may include this in their regular program.

Museum Asks Aid of Area Residents

Desert Museum has completed its lease arrangement with the city of Palm Springs for establishment of a botanical Museum President L. C. Lewis announced today.

Actual work on the project will start as soon as possible. "Cactus Slim" and Patricia Moorten have been named co-chairmen of the committee in charge, and anyone having specimens of desert flora are asked to contact them at 582 South Calle Encelia, or phone 6079.

There are several spots in the Village with all-year licenses and some of these remained open all Summer. The others are planning openings later this month and in October and November.

## Burke Resigns as Manager of Tamarisk Club

Tony Burke, pioneer Villager, Tuesday announced his resignation as manager of Tamarisk Country Club, in order to devote his entire time to his rapidly growing real estate business and to the Cliff May Desert Homes. Burke, with L. E. Manseau and Norman Ostberg, have an exclusive franchise for the Cliff May homes in the Desert area.

The first Cliff May home will be opened for public inspection at Thunderbird Country Club this week, he said. The home is fully furnished and the grounds ready for viewing. A swimming pool has been completed.

Burke said that plans for the season at Tamarisk Country Club have been well advanced and that the club will open October 1 for a Winter-full of activities. First big golf event of the year at Tamarisk is scheduled for October 3 and 4 when the Coachella Valley Invitational will be staged. Many other tournaments are scheduled.

Tamarisk board of directors is expected to meet soon to appoint a new manager to succeed Burke.

"Tamarisk golf course was open all Summer for active play," he said. "It was the first time in the history of the Palm Springs area that golf was available all Summer. During the Summer period 25 new members were enrolled at Tamarisk."

## Summer Drouth Ends in Village

Annual Summer drouth for many Village refreshment spots came to an end Monday night. Places holding PQ licenses — in effect only nine months a year — were again allowed to sell liquor starting September 1. Several are planning early re-openings.

PQ, or resort, licenses, are effective from September 1 to May 31. During the war years when thousands of trainees were stationed on the desert, special permits were granted PQ license holders to remain open all Summer.

There are several spots in the Village with all-year licenses and some of these remained open all Summer. The others are planning openings later this month and in October and November.

## Doctor Aikin Injured in Car Accident

Vehicle Leaves Road While on Way to Idyllwild

Dr. William P. Aikin, well known local physician, was in Riverside Community hospital today as result of an automobile accident on the Banning-Idyllwild highway, early Wednesday morning.

Dr. Aikin was en route to Idyllwild to join his family when the accident occurred. Details of the mishap were not immediately obtainable.

Hospital reports last night disclosed that Dr. Aikin had suffered head injuries, cuts, abrasions and injured back and legs. Reports of x-rays were not available late yesterday.

Dr. Aikin had performed an operation here Tuesday night and following dinner with medical friends, left about 10 p. m. for Idyllwild.

When he failed to arrive there a check was begun.

In the meantime, the doctor's car had left the highway and crashed down the hillside. Dr. Aikin, it was reported, finally managed to crawl out of the wreckage and make his way back to the highway. When no help appeared, he started walking, finally reaching a ranger's station where aid was summoned about 7 a. m. yesterday. He was then removed to Community hospital in Riverside.

Mrs. Aikin is in Riverside to be near her husband.

## Police Start Employee Check

Palm Springs police department this week started its annual fingerprint program in cooperation with employers and employment agencies, at the Free Employment Agency, 224 North Indian avenue.

All applicants for employment in Palm Springs are asked to apply there between the hours of 9 a. m. and 12 noon, Monday through Friday. An officer will be there to fingerprint them.

**THE POLICY**, established six years ago for the protection of employers, is designed to screen out undesirable persons who make application for employment in Palm Springs, Police Chief John S. Davis explained. No law or ordinance is written to make this action compulsory, and it is done through cooperation of employers and police department. It was recently proposed that such an ordinance be adopted, but no action was taken.

**SINCE THE POLICY** has been in effect, more than 25,000 sets of fingerprints have been taken. Chief Davis reported that approximately three per cent of the total applicants, upon dis-

## Police Chief Davis Asks Cooperation of Motorists

"Be a defensive driver — not an offensive one," was the appeal of Chief of Police John S. Davis to Village motorists on the eve of the new season.

Chief Davis emphasized that with the re-opening of schools and renewal of all Winter activities, traffic will increase sharply within the next few days and that motorists, accustomed to less rigid enforcement of traffic rules during the Summer months, will have to get back into observance of all regulations designed to prevent accidents.

**CHIEF DAVIS** said that a program of selective enforcement, based on a recent survey of the accident pattern in the Village, will go into effect at once. "It is important to the motorist public to realize that such a program will result in

## THIS IS 'N' WEEK

This is "N" Week!

And "N" stands for nickels, Police Chief John S. Davis warns. A strict check for parking meter violations started this week, with citations being issued to offenders.

In addition to the meters in operation this Summer, workmen have been busy this past week reinstalling "heads" to all meters. They also are being checked.

Chief Davis said that "warning citations" will be issued to out-of-town residents who "unknowingly" violate the law.

## THOROUGHbred GROUP STARTS SUBSCRIPTION

Thoroughbred race track backers this week started accepting pre-incorporation subscriptions, and by press-time Wednesday had received pledges of more than \$200,000, according to Culver Parker, spokesman for the Palm Springs Development Corporation.

Acting under the name of the Palm Springs Jockey Club, the group is contacting local businessmen and residents to give them first chance at the proposed stock issue of \$1,500,000 at this time. This amount is necessary before the group may re-submit its application to the State Horse Racing Board for a hearing date.

**THE GROUP** eventually will issue 3000 shares of stock, each with par value of \$100, for a total of \$300,000.

Parker said that no money transaction is involved in the conditional subscriptions, but

are merely a pledge to purchase the specified amount of stock when the California State Corporation Commission authorizes the issuance of shares in the proposed company.

**IN THE AGREEMENT** is a stipulation that the corporation shall be incorporated under the laws of the state of California within 90 days after the date on the agreement, and when incorporated "shall with reasonable diligence apply for and obtain from the Commissioner of Corporations of said State a permit authorizing the issuance of the shares conditionally subscribed for herein."

It was pointed out that the subscription agreements will have no effect if the stock permit is not issued, or if the California Horse Race Board fails to grant a license for the track before January 1, 1955.

**PARKER SAID** that the group was confident that the total required amount of \$1,500,000 will be subscribed by the time of the next meeting of the Horse Race Board, and that the group's application for a hearing to be held in Palm Springs in October will be presented at that time. The meeting is scheduled to be held before September 15.

The board has twice returned the group's application as the required amount of money had been pledged, and the list of proposed stockholders.

As possible as contacted, then the conditional subscriptions will be offered to other residents of the state, Parker said.

## Parochial School To Open Sept. 9

St. Theresa Catholic school will open Monday morning at 9 o'clock. Advance registration indicates a larger enrollment than last year's 250.

Mrs. Kay Saindon, kindergarten teacher, has been added to the faculty.

## The PUBLISHER'S Corner

**WANDERING AROUND CALIFORNIA**—Found Priscilla Chaffey doing very well in the real estate business in Carmel. She likes the fogs of Monterey but misses her Palm Springs friends and is anxious to hear about affairs in the Village... Attended the wedding of John Jr. while up there and enjoyed hearing about "the good old days in Palm Springs" from John Chaffey, Sr. who was also there for the wedding. He has recently become associated with a newly formed concern at Pacific Grove which is manufacturing women's coats.

People along the coast are showing a lot of interest in the prospects of a horse racing track in Palm Springs... say they would like to drive down here and attend the races. They seem to think it would be a good attraction for the desert resort area. Backers for a thoroughbred track, whose application was returned last week by the Racing Board, tell me that a new application with the required information will be filed soon. They expect to have a hearing on the application here in Palm Springs in October. If a new application is also filed again by the group promoting a quarter horse track at a site on the east side of Del Sol road, it is believed that a hearing on both applications may be held at the same time.

Another question frequently asked me: "What has happened to the tramway?" People still remember all the publicity given the projected tourist lift to the lofty heights of San Jacinto and wonder if it will ever be built. That's a question I can't answer. I wonder too. I note in Steel magazine that steel is now in greater supply than any period for the past several years. This seems to be the time, if ever, to get some action. The Tramway Authority hasn't issued a statement for a long time. It would be very interesting to know what is being done in the light of changed conditions. I would think from talking with Edward Bacon-up San Francisco way — that he doesn't believe the Tramway will ever be built because it will

## Palm Desert Broker Reports Volume Sales

Lois E. Roy, formerly office manager for Edith Eddy Ward, and now operating her own real estate office in the Palm Desert Biltmore, reports a steadily growing volume of residential sales even during the Summer season.

Included in August sales were: the Harry Johnson home in Shadow Mountain Estates, purchased by Mr. and Mrs. Gerald C. Arnold and daughter Nancy, of Whittier. The Dr. Chambers residence in Panorama Ranch, purchased by Dwight W. and Verda Koppes, with son Neil and daughter Lynn, of Philadelphia. Mr. Koppes is on leave of absence from Curtis Publishing Company, where he has been an executive for seventeen years, associated with the publishing of Holiday and Ladies' Home Journal.

Mr. and Mrs. Harry B. Cannon, an adjuster for Motors insurance corporation, have become owners of one of the new homes recently completed by Adele Lingo.

The A. G. Eldred Company, a brokerage and insurance firm of Santa Ana, bought Mrs. Frances Craig's De Anza Way home and adjoining lots; while the Tony Stahls of Ideal Air company, Indio, decided on the Gorman home, Panorama Ranch. Mrs. Roy and her husband, George Merrill Roy, are doing business under the firm name of House of Roy.

## Plan Remodeling of Lanz Shop

Werner Scarff, owner of Lanz of Hollywood, Inc., and Caspar Ehmcke, architect, were in the Village last week making plans for complete re-designing of the Lanz shop at 116 South Palm Canyon drive.

Ehmcke, who has offices in the Carthay Circle, is the architect who designed the Lanz Beverly Hills shop, which opened this Summer. Mabel Russell, manager of the Palm Springs shop, said that the shop will be one of the smartest in the Village. Modernistic in style, with a new glass front, and complete redecoration, the shop will have new refrigeration and heating plants installed.

Work is expected to start the first part of next week.

cost so much now. He remembers when he and his associates offered to build it for \$2,500,000. The last estimate was around ten million as I recall.

My brother-in-law, Russell Peyton—who used to be in the restaurant business in Los Angeles—showed me one of his 1930 menus. The highest priced dinner was fifty-five cents! . . . soup, salad and dessert, too. "And we made money on those dinners," he told me. The same dinner today would cost from \$2.50 to \$3.50. I don't know how long ago it was that Phat says you could get a rib steak, French fries, half a loaf of French bread and all the coffee you could drink for two-bits. A two-bit tip gets you nothing but a dirty look from the waiter these days. I expect that Phat's story about T-Bone Riley's goes back to the 1920's—but some readers will no doubt remember the place.

Traffic Note: I'm glad they are finally catching up with the SLOW driver. These pokey motorists have been causing almost as much trouble as those who drive too fast. But little attention has been paid them. It's about time something was done to correct an increasingly dangerous situation caused by unreasonably slow drivers. . . . Also glad that they have made it unlawful to have bright lights on when following a car closely. It is stupid practice but one that occurs frequently. It will be hard to enforce—but perhaps just making it against the law will draw enough attention to the thoughtless practice to reduce it considerably. Remember to dim your lights when approaching or passing a car from the rear as well as one facing you.

## Franks Named Deputy at Indio Sheriff Station

Robert Franks, local dance instructor, who figured in the recent bribery trial in superior court as the state's chief witness, is now a deputy at the Indio sheriff's station. Sheriff Joe Rice revealed Monday.

Franks will be on the substation staff for but a month or two, Sheriff Rice said. He will

be employed until he is ready to re-open his dance studio here.

At the time of the bribery trial Franks was a deputy constable serving under Fred Duffey. He was relieved of his duties shortly after the trial. The defense centered its attack on his testimony. Three men were convicted in the trial of conspiring to bribe Sheriff Joe Rice to permit them to open a gambling establishment in the Palm Springs area.

They were Ned Eads, Alvin Schonite and Alvin Bibrey. Their attorneys maintained that it was Franks who first sug-

## Three Juveniles Held for Study of Candy Theft

Riverside county sheriff's office was holding three Palm Springs juveniles, all 15 years of age, at juvenile hall for investigation of burglary at Ribonwood, in the San Jacinto mountain area.

The boys were detained when sheriff's officers, probing a Ribonwood burglary, stopped their car and found quantities of gum and candy.

In a case of mistaken identity, David Frazer, transient worker and resident of a local trailer camp, was booked by local police Monday night when the boys implicated a "Frazer" in their thefts.

The local Frazer was released by the sheriff's office the next day as not being the man wanted on suspicion of felony.

## What a Life

Holidays to Give  
Bankers Ideal Week

Oh, to be a banker!  
During the next few days they are going to live the life of O'Reilly.

Saturday, the banks are closed under the new state closing law. Sunday is a day of rest, naturally. Monday is Labor Day, a legal holiday.

Then they'll come to work for a day Tuesday — take off again Wednesday. Admission Day, work Thursday and Friday — and then it is Saturday night.

Five days of rest in eight. Aside from the banks — city, county and state offices will be closed the same days.

## Jailed, Fined on Charge of DWI

Three months in county jail, a \$350 fine and temporary loss of his driver's license, was the sentence imposed on Chester Doiel, 30, Palm Springs carpenter, by Municipal Judge Elwood Rich in Riverside, following conviction on a drunk driving charge.

Doiel was arrested here August 17.

## Coast Marks Communication Achievement

Legislative, industrial and business leaders of the State and community met in Barstow yesterday to participate in ceremonies marking a historic communications achievement — installation of the 6,000,000th telephone on the Pacific Coast.

The historic telephone was installed in the home of a Marine veteran of the Korean War, Master Sergeant and Mrs. Lionel P. Williams of Barstow.

The installation followed a luncheon ceremony during which U. S. Congressman Harry R. Sheppard, United States Representative for the 27th Congressional District (San Bernardino county) and dean of California's U. S. legislators, presented the phone to the Marine and his attractive young wife.

It was a specially manufactured blue telephone outfitted with a plaque identifying it as the 6,000,000th phone to be installed in the nation's fastest growing region — the Pacific Coast area, which includes California, Washington, Oregon, Nevada and part of Idaho. It became the permanent possession of M. Sgt. and Mrs. Williams, who reside in a new home in one of Barstow's many modern subdivisions.

Honor of installing the significant piece of communications equipment on its system went to the Interstate Telegraph Company, a subsidiary of the California Electric Power Company, which serves Barstow and many other communities and cities in California and Nevada.

## Favor Trailers for Permanent Dwelling Usage

Trailers as permanent homes in some "recreational areas" of the county, principally the desert section, will soon be recommended by the county planning commission. It was indicated this week.

The commission has ordered preparations of zoning measures which will permit use of trailers as permanent dwellings if certain requirements are met.

Some of the conditions are: only one trailer per lot, each lot of full size (about 30 feet by 120 feet), a bathroom and kitchen separate from the trailer and attached permanently to the land.

If the commission's proposal becomes law, trailers could be used as permanent dwellings only on land that is zoned especially by the county for that use.

## Thirteen Pass Police Exams

Thirteen applicants successfully completed the eligibility examination for the police department, dealing with the police and intelligence tests, and are now eligible to take the agility test. Police Chief John S. Davis reported today.

Sixteen men took the test given last Friday evening to establish an eligibility list for future appointments to the local force.

Successful applicants and their average on the two tests are:

Arthur Aldridge 95.7, David Strauss 90.3, William Yerkey 88.4, James Gundert 87.6, John T. Cochran 87.4, Ray Youngberg 84.2, Tom Dunigan 83.5, John Power 78.6, M. E. Rhodes 78.3, Robert Johnson 77.6, Arthur P. Kretz 74.4, Eugene Holmes 72.5, John A. Brennan 70.7.

The agility test will be given at 7 a. m., Saturday.

**POLICE UNIFORMS**—While Patrolman Bob Flavin models the uniform that has been approved for Palm Springs' policemen, Jan Guthrie of the Chamber of Commerce and Dr. Charles Baldwin look at samples from uniform manufacturers. No one seemed to think police blue or metropolitan style uniforms were right for Palm Springs.

## Police, Public Agree on New Seasonal Uniforms

Palm Springs' Finest and a citizens' group, invited by Police Chief John S. Davis to give advice on uniforms, both reached the same decision... that the present Winter uniforms can be smartened up and standardized for use and a lightweight, short sleeve uniform be adopted for the Summer months.

The citizens' group, made up of representatives of Village service clubs, Chamber of Commerce and hotel, restaurant and insurance groups, were called in on Thursday. After looking at samples submitted by various uniform manufacturers, it was the unanimous opinion that

policeman's blue and big city stylings are not suited for the desert.

Chief Davis told the group that they had been asked to sit in on the discussion because "a city is reflected by the uniforms the Police Department wear" and because he wanted "a uniform that is acceptable to all of you."

Police officers, meeting the next morning, voted to standardize the present Winter uniform and add a new type of "eight-point" tan cap for Summer wear.

Sheriff's Reserve men wear a different uniform and are not affected by the decision.

## Villager Named Publicity Head for GOP Meet

Gertrude Walker has been appointed publicity chairman of the California delegation of the Western Regional conference of Republican Women to be held in Yellowstone Park, September 10 to 12.

The appointment was made by Marjorie Benedict, Republican National Committeewoman of California.

The California delegation will enroute from San Francisco September 8 with delegates from Hawaii and Alaska in a special train, and will be headed by Mrs. Benedict.

At this conference, to be held in Old Faithful Inn, Yellowstone, strategy for the 1954 Republican campaign will be worked out and national Republican leaders, including several U. S. Senators and state's governors, will be there to speak and work.

Mrs. Walker and Mrs. Benedict have been in conference at the latter's home in Berkeley on the publicity strategy which will be released to all newspapers and radio stations in the state.

## Exhibits Valued at \$10,000,000 Planned at Fair

Over \$10,000,000 worth of exhibits, all new and all of absorbing interest, are being assembled for the 1953 Los Angeles County Fair at Pomona, September 18 through October 4, according to fair officials. Ranging in value from a few cents to the original portrait of George Washington valued at some \$40,000, the collection represents an amazing variety.

Education and information form the keynote. Prospective home builders will find a veritable encyclopedia of new materials, methods and furnishings along with three ultra-modern model homes including one with a "mother-in-law" haven in the rear. In the magnificent new floral building one will not only see the plants and ground coverings but will learn of their culture.

Foremost art centers of the nation were canvassed for a notable fine arts show tracing America's stirring history through the works of its masters. Bird lovers will find a glorious tropical bird show containing some 500 parakeets in a rainbow of 60 colors. The innovation will be flanked by a magnificent display of rare bowl fish.

Science and invention will be represented by awe inspiring examples of exploration in this atomic age. A great junior fair will display the surprising accomplishments of the boys and girls in their 4-H and Future Farmer projects, their scout troops and other character building organizations. Under the banner of "These are Your Public Schools" there will be a remarkable portrayal of the work in the public schools.

Thousands of square feet are given over to outdoor living and sports. Included are a large automobile show, trailer village and back yard living with swimming pools, patios and barbecue equipment. Popular sports will have instruction in golf, casting and archery, with extensive exhibits of equipment.

## Wot Hoppen?

People Crowd into  
Unopened Store

"Wot hoppen?" Such was the question asked by Marty Cobin, owner of Marty's Sample Shop, when he returned from out of town Sunday. It seems that people are after bargains every day of the week.

A report filed with the local police department said that the store was full of people but that there were no clerks on duty to help them.

An attempt to locate Cobin was unsuccessful, and it was impossible for police to lock the door, so they had everyone leave and watched the place until Cobin returned.

## Water District Tax Rate Drops Fifty Per Cent

Tax rates of the Coachella Valley Water district will be 50 per cent less in every category this year, county officials reported.

Total rates are \$2,591, compared to \$5,611 last year. By categories, comparisons (1953-54 rates first) are: general, \$246, \$578; storm water \$222, \$533; improvement district No. 1, \$2,123, \$4,500.

The general rate for administration of the water district and the storm water rate are levied on full assessed valuation, and the rate for improvement district is levied on land, but not improvements within the boundaries of the district.

## Breitweg Named Deputy City Clerk

Council Wednesday afternoon named William Breitweg, city humane officer, as a deputy city clerk to enable him to collect money for the city. This will enable him to collect license fees, it was explained.

But Sunair Drive-in  
Audience Pleased

Sunair Drive-in theater goers were surprised as well as disappointed Monday night, when they attended the show to see Clifton Webb in "Mr. Scoutmaster."

The 20th Century Fox Film company got their films mixed in the shipping cans, and instead of "Mr. Scoutmaster," they sent "Sailor of the King," a wonderful picture of a boy who singlehandedly detained the German warship Essex for 18 hours, and caused its ultimate destruction. The picture had been scheduled for a Los Angeles premiere that night.

"Mr. Scoutmaster" was shown as scheduled starting Tuesday night.

## Planners Approve Record of Survey

County planners have approved the tentative map of a record of survey for about 100 acres near Garnet and Desert Hot Springs.

The land, located on the west side of Indian avenue and about half a mile north of Pierson Boulevard, will consist of 17 lots of five acres each and nine smaller lots.

## Entertainment Top Feature of State Fair

"To many people, the night shows and the fireworks are the high points of the California State Fair," said Hal G. Hotchkiss, State Fair director. "And they won't be disappointed when they see these attractions at the 1953 Fair." Hotchkiss is chairman of the directors' Attractions committee.

We'll have two different night shows during the 11-day run of the fair, September 3 through 13," he said. "Spike Jones and his band will be here for the first five nights, and then radio star Phil Harris takes over for the last six nights. Each star will be supported by an outstanding collection of vaudeville entertainment."

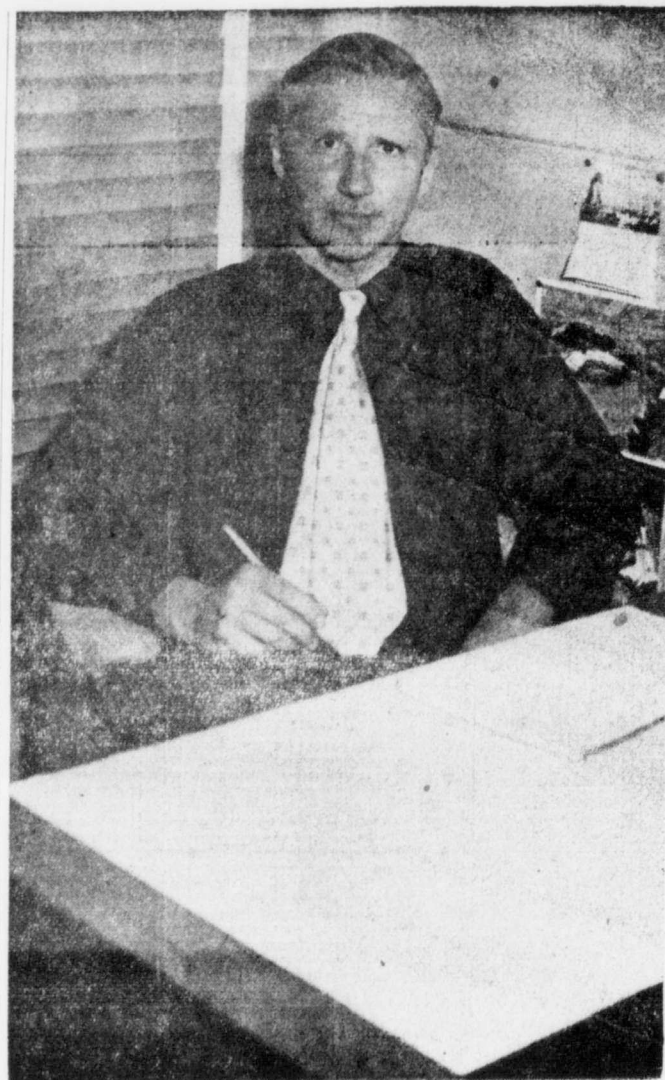

However, Hotchkiss pointed out, the entertainment at the fair won't be limited to the grandstand shows.

"There's the horse show, of course," he said, "and, in addition there are vaudeville shows at the open air theatre—which, by the way, has been completely rebuilt this year—plus a showing of out-standing colored slides by top-notch professional photographers, band music all during the day and many special events."

Much of this entertainment—the open-air theatre, the band performances, the photography show, for example—is free, he added.

"And we've kept the admission prices on the other events at the same rates they were last year," he said. "We haven't raised them one penny."

## NEW ESCAPE REASON, HAD TO FINISH WORK

To Willie Edmond, life was simple and uninvolved, that is until Thursday night!

About 9:30 that evening Officer W. L. Jessup brought the 19-year-old Negro boy into the police department to book him for vagrancy.

The questioning started.

**BUT WILLIE EDMOND** was not happy. His mind rushed to the decision to try escape, and then, faster than a thought, Willie jumped from his chair and out the door, over a six foot fence in back of the station, down Belardo road to the Chi Chi parking lot, and over Andreas road to become lost in the sand dunes and foliage of the desert in back of the stables.

And as Willie ran, the police

went into action, this time to catch an escapee. But Willie had fled.

**IT WAS NOON** Friday, when Willie was spotted near the Tahquitz bridge on Palm Canyon drive, and the police cordoned closed in on him. He was working on his job on the Lilianna Gardens development, when Officer Morris Alken pulled the white and black police car up in front.

Spotting the officer, Willie started running and once again, as he did the night before, climbed a six-foot fence, but this time as he jumped down he stood facing Police Chief John S. Davis and Sergeant Howard Poe.

And Willie stopped running.

## Brakeman Charged with Robbery of Two Wetbacks

Jack E. Blakeman, 29, Los Angeles, Southern Pacific railroad brakeman, faces trial in superior court at Riverside on a charge of robbery after his arraignment in Banning court Tuesday.

He is accused of robbing two Mexican "wetbacks" whom he found hitching a ride on a west-bound freight train while it neared the Village.

The Mexicans, who were also held at Banning, for deportation, claimed Blakeman took \$30 from them. They left the train at Banning and hired a taxi cab, cruising around the

city until they found immigration officials.

Blakeman was later arrested at an Indio boarding house and turned over to sheriff's deputies.

The Mexicans identified themselves as Ramon Espinosa, 18, and Jose Salsueto, 36. They said they boarded the train near the border and that the robbery occurred between Indio and Palm Springs station.

Blakeman was arraigned in Judge Ray Hawley's court in Banning and held to answer. Bail was fixed at \$1,000.

## Three Injured in Accident

Two Coachella men and a seven-year-old Leucadia boy suffered minor injuries at 7:45 p. m., Saturday, in the collision of a car and car with house trailer at the junction of Highway 111 and 74, Palm Desert.

Injured were Richard W. Nieto, 23, Coachella; Raymond E. Muroz, Thermal; and Norman R. Haring, 7, Leucadia. All were treated at Coachella Valley hospital, Indio.

Nieto's car collided with the car and house trailer driven by the boy's father, Joseph P. Haring, 47. Both vehicles were traveling west on Highway 111.

He said he had fled from custody because he could not disappoint the man who had hired him to do a job, for he had "told the man I would not leave the job until it was completed, and I sure couldn't keep that promise in jail."

# McCarthy Plans Study of Tin Mines

Estes Says Now Have Real Chance to 'Get Somewhere'

Senator Joe McCarthy, who has been making headlines running down communists, may turn his searchers loose on the tin mines of Riverside county, Ralph Estes, a member of the board of the County Chamber of Mines, said Monday.

"We now have a real chance to get somewhere," he said. "The tin-sin of Temescal is before a committee headed by Senator Joe McCarthy."

ESTES, WITH OTHER members of the chamber of mines, has often said that the Temescal Canyon region is rich in tin ores but that a British cartel has used different methods to keep the information from getting out.

Estes charged recently that a derogatory report of the canyon's tin potentialities, a report made during World War II by the U.-S. Department of Interior, was deliberately falsified.

At Estes' request, county supervisors asked the Department of Interior to restudy the report.

THE DEPARTMENT wrote back to the supervisors, after a few weeks, that it had found nothing to change the general conclusion of the original report — that there isn't enough tin in the canyon to supply the tin for a can of beans for prospectors.

Estes said it is Senator Thomas Kuchel who helped the chamber get the question of tin in the canyon to Senator McCarthy.

THERE WAS NO immediate indication as to just when Senator McCarthy will get an investigation under way.

Estes made his report to county supervisors. They expressed a hope that Senator McCarthy will strike tin.

## BANDY FINDS 'LEAPING LENA' BRINGS IT BACK

Troy Bandy, body shop foreman at Stack Chevrolet, came back from his vacation with something better than a collection of fish stories. It's a 1920 Chevy, which he plans to restore and enter in parades.

Bandy discovered the Chevy, one of the original "Leaping Lena" models, setting under a shed on a ranch near Fresno. It hadn't run since 1932 but when he put a new battery in it . . . it started right up. Bandy says it is in excellent mechanical shape.

Known as the "490", the old car has a box back, and bears little resemblance to 1953 models. It's chief mechanical difference is its cone type clutch, which earned it the sobriquet of "Leaping Lena."

When the ancient auto is restored it will wear its original black and white license plates, which the rancher still had.

Bandy says that this model is a scarce one and his is probably the only one in Coachella Valley.

Bill Grant, local builder, flew in here from Helena, Montana, on Thursday to conclude the sale of his three bedroom, three-bath, California ranch type home at 15 Palomina road, Deep Well Ranch Estate, to Fred and Lloyd Blethan.

Spring Winter residents, and in Palm Springs and already extensive property owners here. This purchase gives further indication of their great faith in the community. They are planning construction of a large swimming pool immediately and to occupy the residence about October 15.

Fred and Lloyd Blethan are leaders in the aircraft industry as owners of the Whittaker Corporation and also Fletcher Aircraft, with offices and plants scattered throughout the United States.

This is the last of the homes constructed by Bill Grant in Deep Well Ranch Estates and he is now hurrying to complete his construction in Helena, Montana and return to Palm

Spring to construct two model homes in his new subdivision at Deep Well.

He just recently completed a delightful home in the Valley of the Moon country in northern California for Dr. and Mrs. D. B. Park, who are regular Palm decided for their own home up

## Carmel Scene of Wedding August 22

St. John's Chapel at Monterey was the setting for the marriage of Miss Collette Ferguson of Carmel and John Taft Chaffey, son of Priscilla Chaffey and John R. E. Chaffey, former Palm Springs residents. The Episcopal marriage service was read by Bishop Ziegler of Alaska on Saturday afternoon, August 22. A champagne reception for 200 guests followed the ceremony at the home of Mrs. T. M. Crelley at Carmel Highlands.

The bride is the daughter of Mrs. Vada Ferguson of Carmel. For her marriage she chose a candlelight satin gown with a long train, Florentine basque and veil. She carried a bouquet of varicolored flowers as did the eight little flower girls who led the marriage procession and her bridesmaid attendants. She was given away by her brother, David Ferguson, a Korean veteran who returned from Korea just in time for the wedding.

Mrs. Chaffey attended University of California at Berkeley for her freshman year last winter and is a graduate of Carmel high school.

Mr. Chaffey was born in Palm Springs and attended Frances Stevens school. He graduated from Menlo preparatory and Stanford university. Prior to his marriage he was doing post graduate work in marine biology. Serving him as best man for his wedding was Charles Verkes.

Mr. and Mrs. Chaffey will make their home in Joslyn Canyon, Monterey, where Mr. Chaffey is engaged in a manufacturing business.

### SMC Youth Party Success, Plan Another

Shadow Mountain Club was the scene of much activity last Thursday evening. A cool desert night provided a perfect setting for the teen-agers' "huge bonfire" scene of their wiener roast and story telling circle. An interesting game of charades, with the boys and girls gathered around the glowing coals of the dying fire preceded informal dancing. Everyone enjoyed the party so much that the group voted unanimously for a repeat performance to-night.

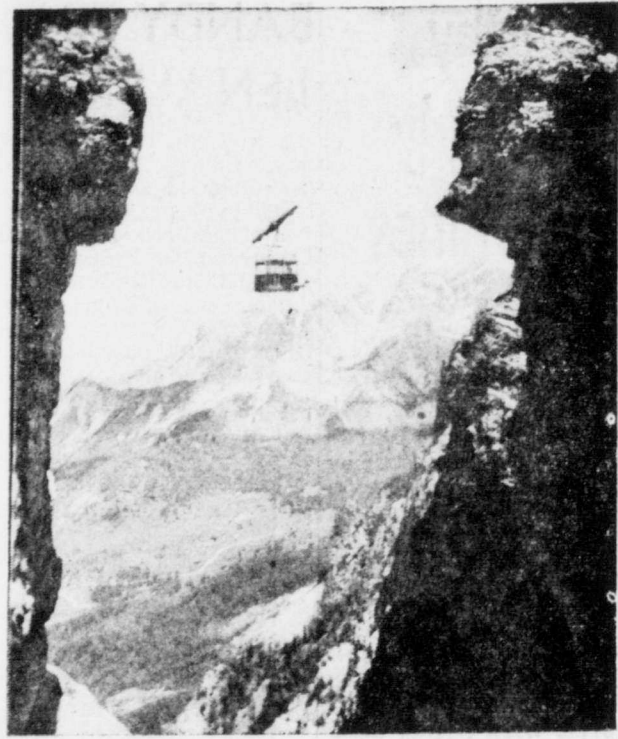

Parents were barred from the "teen party" (a popular hit with the juniors), but Mother and Dad joined in the adult tennis round robin, a regular Thursday night feature which has become increasingly popular under the friendly guidance of Tennis Chairman Gene Roberts.

Attending the teen-age party were: Greg Kincaide, Denny Gabel, Julia Gabel, Peter Reeder, Jimmy Eubanks, Charles Clark, Carole Storem, Stan Stelle, Danny Lichty, Leroy Green, Ronny Frost, Cecily Bond, Carol Yates, Ray Blades, Ben Herzog and Cheryl Walker.

Winners of the tennis Round Robin trophy for the evening were Mary Trumble and Cliff Henderson. Other teams competing included: Gene Roberts and Betty Ring; Boz Bosworth and Josephine Lemons; Bob Stewart and Juanita Bosworth; Stanley Ring and Birdie Bond; Dave Bond and Elaine McLaughlin; Teddy Roberts and Floyd Dawson; and Marilyn Sikes and Stewart Trumble.

### Oklahoma Picnic to be Held Monday

Members of the Oklahoma State Society will hold their annual meeting and picnic on Monday, September 7, at Sycamore Grove Park, Los Angeles. President William G. Condon announced today. The program at 2 p. m. will feature stars of radio and television, he said.

**HIGH IN THE SKY**—Dolly Marcuse, traveling in Europe this summer with Mrs. John Marcuse, writes from Italy "If Palm Springs ever gets a ski lift, guess it will be like this. What a thrilling ride." The card pictures the Funiwa Cortina-Faloria lift. Dolly says they have had a wonderful time in Portugal, Cannes, Rapallo and Venice. They were on their way to Lucerne and Paris and then home.

### PTA Starts Plans for Year

LESS THAN A CENTURY AGO, covered wagon trains and mule freighters stopped for water at a place where the Mojave River sinks into the sands of the great Mojave Desert. That watering-place, now the geographical center of Southern California and the "capital" of the prosperous Mojave Valley, is the thriving city of Barstow. It was in Barstow on September 2, in the home of Marine Master Sergeant and Mrs. Lionel P. Williams, that the Pacific Coast's 6,000,000th telephone was installed by Interstate Telegraph Company (a subsidiary of California Electric Power Company).

M. SGT. and MRS. WILLIAMS received a very special telephone to mark the historic occasion. Mrs. Williams (pictured with her Marine husband) placed the first call to her mother and father in North Dakota.

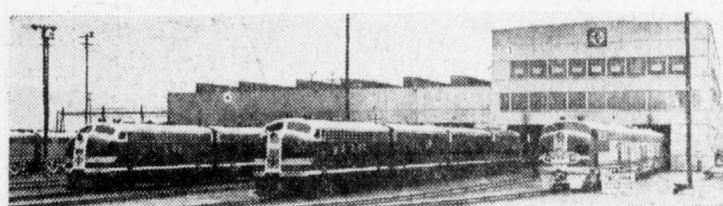

WESLEY TAYLOR, of Interstate Telegraph Company, climbed the pole and spliced wires to connect what will forever be the 6,000,000th telephone on the Pacific Coast (Washington, Oregon, Nevada, California and a portion of Idaho).

THIS WAS A GREAT MILESTONE in the tremendous growth and expansion of the Interstate Telegraph Company and the development of the vast territory it serves from the San Bernardino mountain area in Southern California to Carson City, Nevada.

The job of providing service to keep pace with the growth of this vast area started soon after World War II when materials became available for civilian use. This was followed by planning, manufacturing, engineering and installation of equipment on a continuous basis to satisfy the constantly growing service needs. Yes, Interstate's total investment has increased more than 290 per cent since 1945.

We, of the Interstate Telegraph Company and our parent company, California Electric Power Company, have strong faith and confidence in the great area we serve.

Whatever your requirements may be — business calls — messages of cheer — words of bereavement — or calls to keep in touch with friends and relatives many miles away — we, your Telephone team, stand ready to serve you to the best of our ability.

PICTURED HERE IS SANTA FE RR diesel shop at Barstow where more than 1,000 of the City's residents are employed. Barstow lays claim to being the site of the biggest diesel repair shops in the world — important and indispensable to the nation's rail communications. And now Barstow can lay claim to the 6,000,000th telephone on the Pacific Coast — a significant communications milestone.

## Temple Isaiah Reopens with High Holy Days

The High Holy Day Season will be ushered in by the Jewish residents of Palm Springs and nearby communities with special soul-stirring prayers and awe inspiring music at Temple Isaiah, Rabbi Arthur B. Lebowitz announced today.

The Jewish community will unite with its fellow Jews all through the world in observing this most important season in the religious calendar of their people. They will assemble to welcome by prayer and meditation these Holy Days with their comforting mood of solemnity and message of divine hope and of spiritual regeneration.

The services will be conducted by Rabbi Lebowitz, who will be assisted by Robert Morris and Leib Rosen. Cantor Salo Blumenthal, well-known musical authority and possessor of an excellent voice, will render the liturgical portions of the prayers. For the first time in the history of the congregation, a special choir trained by Harry Tomlinson, temple choirmaster, will be heard during these Holy Days. Christine Tomlinson is the temple organist.

The following are the dates and hours of the Holy Day services; Rosh Hashanah (New Year), Wednesday evening, September 9, 8:15 o'clock; Thursday morning, September 10, 10 o'clock; Thursday evening, September 10, 8:15 o'clock; Friday morning, September 11, at 10 o'clock.

Yom Kippur (Day of Atonement), Kol Nidre, Friday evening, September 18, 8:15 o'clock; Yom Kippur day, Saturday morning, September 19, 10 o'clock; children's services at 1:30 o'clock; afternoon services at 2:30 o'clock; Memorial (Yizkor) services at 4 o'clock.

## JEALOUS PROSERPINE

The name "Mint" comes from the Greek word "Menthe"... and its story goes back to mythology. The legend says that Proserpine, the beloved of Pluto, became jealous of a beautiful nymph named Menthe. In revenge, she transformed Menthe into a lowly herb, so that she would be forever trampled beneath the feet of mortal men.
